On a standalone basis, income for the year at ₹1432.47 crores increased by 9.65% from the previous year's ₹1306.36 crores, profit before tax for the year at ₹138.89 crores increased by 103.50% (40% excluding exceptionals) from the previous year's ₹68.25 crores and profit after tax for the year at ₹100.03 crores increased by 84.42% from the previous year's ₹54.24 crores.

On a consolidated basis, income for the year was ₹2381.44 crores, profit before tax for the year was ₹199.50 crores and profit after tax for the year was ₹129.33 crores. The consolidated results of the Company for the year under review are not comparable with the reported consolidated results for FY13-14, especially consequent to the transition of Trent Hypermarket Limited to a 50:50 joint venture from being a wholly owned subsidiary earlier.

Significant exceptionals in the year under review include the profit on part sale of stake held by the Company in Trent Hypermarket Limited and the charge relating to restructuring of Landmark operations.

2. Dividend

The Board of Directors recommended payment of dividend of 100% i.e. ₹10 per Equity Share (previous year @ 70% i.e. ₹7.00 per share) which includes a one time special dividend of 25% i.e. ₹2.50 per equity share, for approval by the shareholders on 3,32,31,544 Equity Shares of ₹10 each for the year ended 31st March 2015. This along with dividend distribution tax represents a payout ratio of around 39.99% of the profit after tax. The special dividend is recommended by the Board of Directors primarily in the context of the gains realized by the Company on part monetization of the stake held in Trent Hypermarket Limited.

3. Significant developments

A brief overview of the significant developments with respect to the Company and its key subsidiaries & joint ventures is as below. The Management Discussion & Analysis presents a more detailed commentary including the background and the rationale thereof.

Joint Venture with Tesco, UK

Trent Hypermarket Limited (“THL”) operates the Star Bazaar retail business.

In the month of June 2014, Tesco Overseas Investments Limited (“Tesco”), a wholly owned subsidiary of Tesco PLC, UK, purchased part of the equity shares held by the Company in THL for an amount of ₹150 crores and separately subscribed to additional THL equity shares for an amount of ₹700 crores. Following the said investment, the Company and Tesco each hold a 50% stake in THL. Consequently, THL is now a joint venture of the Company with Tesco.

In the month of January 2015, the Company and Tesco further invested an amount of ₹150 crores each in THL’s Rights Issue.

Purchase of stake of Tesco Hindustan Wholesaling Private Limited by THL

Tesco Hindustan Wholesaling Private Limited (“THWPL”) is engaged in the business of wholesale trading of variety of food and non-food products, including fast moving consumer goods, general merchandise, fruits, vegetables and staples. THWPL had also developed backend infrastructure in terms of warehousing facilities, people and related processes.

THL acquired 100% stake of THWPL in January 2015 and consequently THWPL is now a wholly owned subsidiary of THL.

Scheme of Amalgamation

In order to streamline the group structure, the Board of Directors of THL, THWPL and Virtuous Shopping Centres Limited (“Virtuous”) in the month of January 2015 approved the Scheme of Amalgamation of

THWPL and Virtuous with THL. Virtuous, a wholly owned subsidiary of THL, through its subsidiary, owns a real estate asset in Pune, Maharashtra and otherwise does not have any separate operations.

As THWPL and Virtuous are wholly owned subsidiaries of THL, no shares of THL would be issued and allotted pursuant to the proposed Scheme.

The Scheme is subject to the requisite approval of the High Courts and other relevant regulatory authorities.

Landmark restructuring

During the year under review, the Company undertook a significant restructuring exercise with respect to the Landmark business. This exercise was taken up in the context of the evolving environment for retailing of categories handled by the Landmark business (including books, music, gaming etc.) and the headwinds posed by muted performance of the Landmark store portfolio. The exercise involved significant rationalization of the store portfolio, further restructuring of the product offer and material changes to look & feel of the 5 retained stores. Consequently, the Company has taken an exceptional charge of ₹35.64 crores in the FY 2014-15.

Sport Zone

In the month of April 2015, the Company launched 'Sport Zone' in its Bangalore store as an integral part of the Landmark offer. Sonae SR operates the largest chain of sports shops in Portugal under the banner Sport Zone. The innovative products & equipment developed and marketed by Sport Zone will be available to the Indian customers in select Landmark stores managed by the Company. The partnership plans to open the first five Sport Zone outlets by end of 2016.

4. Management Discussion and Analysis

MANAGEMENT DISCUSSION AND ANALYSIS

Economic backdrop

The economic backdrop is a key factor impacting the performance of Companies across sectors including organized retail. Consumer sentiment and business confidence witnessed improvement in the financial year under review with economic growth gaining momentum especially in the second half of the year. This is possibly attributable to decreasing inflationary pressures, the easing of the monetary stance by the Reserve Bank of India and a more stable political & policy environment. Business sentiment is also aided by investor friendly tax proposals (albeit over the medium term), structural reforms being taken up (with respect to GST, land acquisition etc) and the stated intent of the Government to pursue further fiscal consolidation.

As observed in prior years, the organized retail space in the first decade of this century was viewed as offering enormous potential for growth in India. However, post FY08 the industry witnessed a sharp moderation in expectations with most retailers across formats facing significant head winds in terms of like-for-like growth and viability of stores. Following the pronounced slowdown, the industry witnessed a modest recovery in FY09-10. This recovery gathered further momentum in FY10-11 and yielded strong double-digit like-for-like growth across most credible retail formats. Consumer sentiment thereafter was impacted in FY11-12 and continued to be muted till the second half of FY13-14 with high inflation expectations, pronounced interest rates and economic uncertainty being key contributing factors. Consumer sentiments improved in FY14-15 with apparel retailers have been reporting an improving trend and most other retail formats also witnessing an improved off take.

Organized retail opportunity

The Union budget has been rolled out by the new government, with promotion of overall economic growth as a key objective. FY15 has witnessed policy continuity and pursuit of certain reform measures aimed at reviving growth and surmounting structural constraints in the economy. On the other hand, the level of interest rates is still viewed by the markets to be on the higher side and a key factor in stifling investment commitments by industry.

Near term issues notwithstanding the organized retail opportunity in India continued to attract interest from both large Indian business houses and multinational retailers. It is our belief that over the medium to long term, most of the earlier arguments in favour of the sector continue to be valid. Consistent with the coverage in earlier reports, the following constitute the principal arguments in favour of organized retailing.

➤ Penetration of Organized Retail:

About 8% of the total retail market in India is accounted for by the modern/ organized retail sector. The remaining market is served by small, independent retailers with an average of 500 sq. feet trading

space, fragmented across sub-segments and offering limited shopping conveniences to customers. They are supported by a network of manufacturers, distributors and wholesale traders who operate with many global and local brands. This is in contrast to an average of 80% plus penetration of organized retail in many developed nations. Further, 69% of India's population lives in rural areas & this population contributes just 54% of the total retail consumption. In the recent years we have seen increasing traction for organized retail not only in tier 1 and tier 2 cities but in tier 3 cities as well.

➤ **Demographics**

India is a young nation, with two third of the population under 35 years of age. While the global median age for population is 33 years, India's median age is around 23 years. The high percentage of youth population should drive the demand for more fashionable clothing as well as for ready meals & processed food due to their increased propensity to consume. The increasing desire to look good & presentable influenced by western culture and exposure to online & social media have boosted the organized retail markets. Immense scope is seen for banners offering an innovative product range to meet the aspirations of the brand conscious consumers with evolving preferences.

➤ **Higher Disposable Income:**

Most research studies suggest rising incomes in the next decade. This is likely to continue propelling consumption by the middle class. Therefore, targeting the mid-market seems to offer substantial revenue potential. As the chart below depicts, number of households (in mn) with annual income brackets in the range of ₹ 90,000 to ₹ 10 lakhs is expected to increase significantly over the next decade.

Growing Purchasing Power of Indian Middle Class

Source: McKinsey Report

The demographics coupled with less than 10% of the work force being directly employed by the organized sector seems to contribute to a constant shift upwards in the reference point of the average consumer – in terms merchandise aspired for. Besides the huge untapped market and the opportunity afforded by the demographics, the following factors/ trends are seen contributing to growth in spending overall, and particularly for organized retail over the medium term:

- Changing family level organization/ role definitions and exposure
 - More nuclear families
 - Increase in the number of working women
 - Kids being more informed and demanding
- Increasing exposure to and influence of cosmopolitan media; consequent adoption of Western habits and markedly higher brand consciousness
- Easier availability of jobs (especially Outsourcing & IT related); BFSI & related employment is expected to increase to over 12 million in the coming decade
- Increased availability of credit/ social acceptance of consumption aided by borrowings; it is estimated that about 15% of the people in urban cities are currently making monthly payments for loans

There is no denying the tremendous opportunity that organized retail offers in India, but there are also some significant challenges that need to be tackled including:

- Cost pressures – there has been significant inflation in energy costs and common area maintenance charges in malls in the last few years
- Availability of retail talent – the last few years have seen challenges related to paucity and retention of trained talent
- Quality real estate – there is limited availability of quality real estate. This, coupled with high rentals and non-adherence to committed schedule by builders pose significant challenges to deployment of strategic plans related to expansion
- Local legislations – multiple local legislations across the country make it challenging for any organization with pan-India presence
- Supply chain management – multiple issues with respect to infrastructure pose obstacles in ensuring availability for customers
- Complexity in taxation – inconsistent tax regime across various states makes it difficult to manage a pan-India network of stores

Organized retail industry in FY14-15

In our view, during the financial year under review the key factors and developments that impacted the organized retail industry in India were:

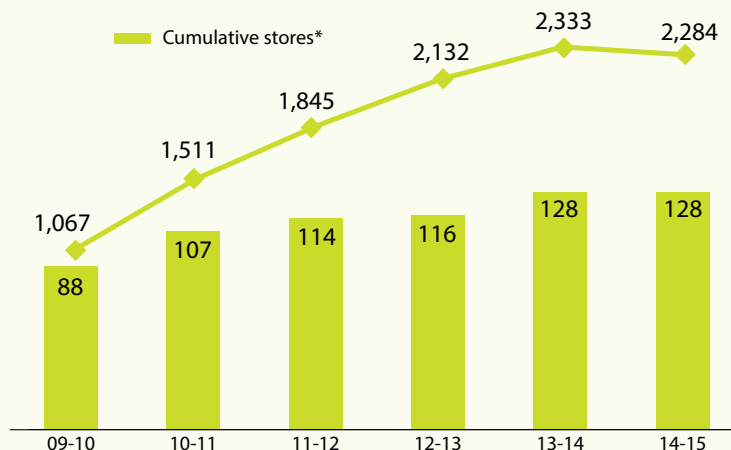

- the near term consumption triggers (GDP growth, inflation & interest rate levels)
- the emergence of online market places across a whole range of categories with aggressive discounting strategies funded by overseas investors
- supply chain issues and cost pressures (including minimum wages and energy costs)
- nebulous regulatory landscape especially with respect to FDI in multi brand retailing
- the intensity of micro market competition

With varying degrees of impact the retailers in India have witnessed during the Financial Year 2014-2015:

- a) Consumer confidence and off-take especially in volume terms was muted especially in the first quarter of the year, with consumer spending possibly getting impacted by a lower level of discretionary household budget given the pronounced inflation witnessed in various categories coupled with higher borrowing costs. The consumer sentiment saw improvement in the latter part of the fiscal with the easing of inflation amongst other factors.
- b) Aggressive e - commerce & digital retailing in the last two years has intensified the competition across categories; this challenge was even more pronounced for retailers offering primarily third party brands.
- c) Significant operating cost pressures seen including in respect of wages, electricity and common area maintenance. Nevertheless, the cost pressures with respect to merchandize inputs remained moderate during this period.
- d) The pronounced rentals involved in taking up of additional real estate for expansion especially given the limited pipeline of acceptable retail real estate developments. The limited pipeline of developments is in turn explained for the most part by:
 - attractiveness of alternate developments like residential apartments;
 - entry of international payers & their clustering in high street malls further lead to difficulty in obtaining properties at acceptable economics
 - the operational difficulties in managing retail mall/ shopping centre; and
 - importantly the significant liquidity squeeze faced by the real estate sector given the RBI policy
- e) Higher intensity of competition in certain micro markets due to pronounced clustering of retailer presence with similar offers.
- f) Increasing complexity of the indirect taxation and the uncertainty regarding the implementation of GST.

These macro observations have applied, though with varying emphasis to the predominant retailing formats (Westside, Star bazaar & Landmark) managed by the Company and Trent Hypermarket Limited (THL). In aggregate the Company registered encouraging growth, with consolidated revenue from operations at ₹ 2,284.25 Crores. This is not comparable with the reported consolidated income for FY13-14 especially consequent to the transition of THL to a 50:50 joint venture from being a wholly owned subsidiary earlier.

Principle formats and focus on sustainable growth

Our Company was one of the earliest to enter the organized retail sector in India and has focused on developing a robust business model in each of the retail formats pursued. We have consistently emphasized the importance of establishing the viability of a retail format with a limited portfolio of stores prior to embarking on rapid expansion. The above approach has yielded encouraging results and enabled the Company in coping with market challenges. The Company primarily operates stores across three formats – Westside, Star Bazaar & Landmark.

Westside – Trent’s flagship format – offers apparel, footwear and accessories for men, women and children, along with furnishings, artifacts and a range of home accessories. Operating with a predominantly exclusive brands model, Westside continues to demonstrate the ability to compete effectively in the market place, despite having to face global competition for the mind space and share of wallet of a discerning audience. Westside products are known for style and class amongst fashion conscious consumers in 53 cities across 86 stores.

Star – hypermarket and convenience store chain – it offers a wide choice of products, including staple foods, beverages, health and beauty products, apparel, home furnishings, vegetables, fruits, dairy and non-vegetarian products. The market reception for Star stores have been encouraging and the format is in the process of establishing itself as a place offering a compelling range of quality merchandize at attractive prices. Star Daily and Star Market banners (having much smaller individual store footprints vis-à-vis Star Bazaar stores) have been launched in the recent quarters.

Landmark – a home entertainment format – offers a range of books, toys, sports merchandize, stationery & technology accessories. The back-end operations relating to the format have been significantly integrated with that of the Westside format to drive synergies and contain overhead costs. A significant restructuring exercise has been concluded during the period under review involving significant rationalization of the store portfolio, further restructuring of the product offer and material changes to the look & feel of the retained stores.

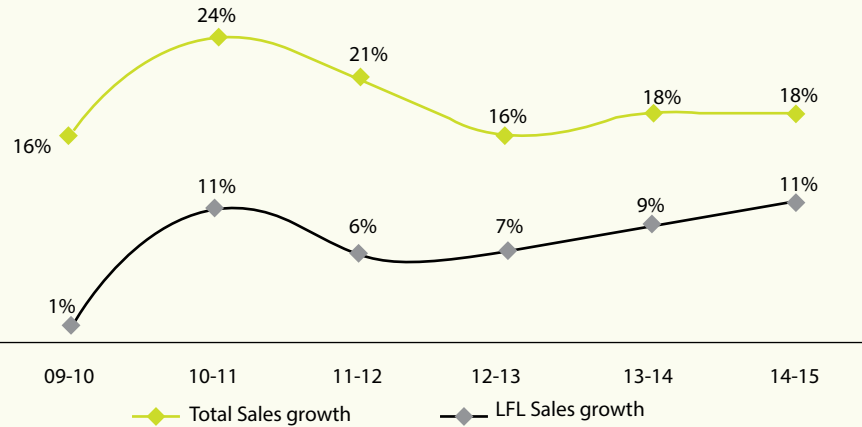

Operations – Westside

The Westside format offering predominantly an exclusive range of own branded fashion apparel continues to be the mainstay of the retailing business of the company. This format over the years has been rolled out across the country and currently covers 53 cities.

The Westside model involves active control across the value chain including with respect to design, branding, sourcing, logistics, distribution, pricing, display and promotion of almost 90% of the product range retailed. We believe this model is more robust than department store models that predominantly retail third party brands including from a ‘return on capital employed’ perspective. Empirical evidence also seems to suggest that globally, retailers who control the entire value chain are relatively more successful.

In the period under review we continued to focus on a number of internal improvements in Westside. Key initiatives included the launch/ refresh of a portfolio of exclusive brands, improved presentation in stores, focus on select newer categories and providing a better shopping experience to the customers by improving the look & feel of select existing stores. Aided by the strategies pursued and reasonably favorable market conditions the format registered a healthy 11% like-for-like growth in revenues in FY14-15.

We have launched/ refreshed a number of brands, available exclusively at Westside stores, in the last two years. These brands have been evolved to target key customer segments based on their needs, purchasing power and appetite for fashion. Launches during the year:

We launched four new brands, exclusively available at Westside stores, during the last fiscal. The customer response to the new launches has been encouraging. A brief commentary on each of them is as follows.

is Westside's in-house lingerie brand. Targeted at the confident modern day woman, the innerwear brand looks at further enhancing the personal fashion quotient by offering an array of new and best-selling styles reinterpreted in a playful palette of colors.

is Westside's latest collection of trendy clothing designed for today's youth who love their curves. is an exclusive beauty zone at Westside and has several leading beauty brands together with an exciting new range of StudioWest cosmetics.

is a new clothing line for men, displaying a unique understanding of the fashion needs of the beefed up men, to let them carry their size with elan and grace.

Other key customer offer related initiatives

Gourmet West and Lakeland are two relatively new areas we have ventured into in the recent years. We believe that they would afford the Westside format significant growth potential over time.

- **Gourmet West** – the premium food & beverages offer is a shop in shop currently operating from six key Westside stores. Customers can enjoy the experience of Gourmet West in various Westside stores in Mumbai, Bangalore, Hyderabad, Chandigarh and Surat. With encouraging response seen in these stores the Company will continue to invest in the food segment. There are plans to expand Gourmet West stores in select Westside locations in FY15-16 as well.
- **Lakeland** - In FY13-14, we had introduced fashionable kitchenware for customers in Pune and Bangalore through an exclusive tie up with Lakeland – a British company famous for its creative kitchenware

across the world. With encouraging response from our customers, we have recently launched another Lakeland store in Bangalore. We believe this exclusive tie up will help us deliver an enhanced shopping experience for our customers.

Partners in Progress

Product sourcing capabilities and a global vendor base are key ingredients to Westside delivering a desired merchandize range at the right price and time to customers. Feedback from our Supplier Satisfaction Surveys and Annual Supplier Meets suggest that improvements in our product development and supplier relationship management processes continued to play a key role in being able to source the right product at the right time for our customers.

Efficient Supply Chain

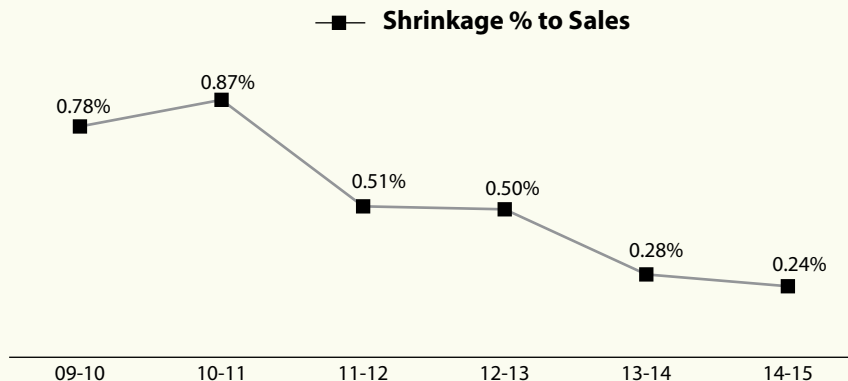

The organization continued to invest in technology and upgradation of the supply chain network which we believe is vital to the success of a retail organization. Our warehouse operations have been running at over 99% efficiency for the last two years. Higher levels of efficiency were witnessed despite growing volumes in terms of both intake from vendors and dispatches to stores. In the medium term, we see the need to invest in the expansion of our warehousing capacity both to service increased volumes as well as mitigate concentration risks.

Great Shopping Experience

In the retail industry, a great shopping experience is of paramount importance. Store location, displays, store ambience, customer service and convenience of shopping are some key parameters that help customers enjoy a great shopping experience and keep coming back. In order to increase walk-ins and improve the shopping experience of our customers we have continued to pursue the modernization of our older stores and optimization space allocation based on the category mix which have a better sales potential with a renewed effort to improve service. Both of these initiatives have reaped us encouraging results.

Operating Standards

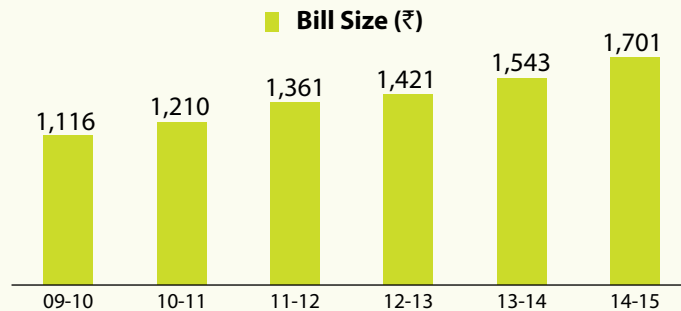

There is an on-going emphasis on robust deployment of our operating model coupled with review rigour. Shrinkage cost is one of the bellwether measures with respect to operating efficiency and we have witnessed an improving trend (as depicted in the chart below), in the recent years. Results reflect the measures undertaken to reduce shrinkage level at stores, warehouse & distribution centres. Also, our aspiration is to deliver a uniform experience to all our customers irrespective of whichever store they walk into.

Customer Listening & Engagement

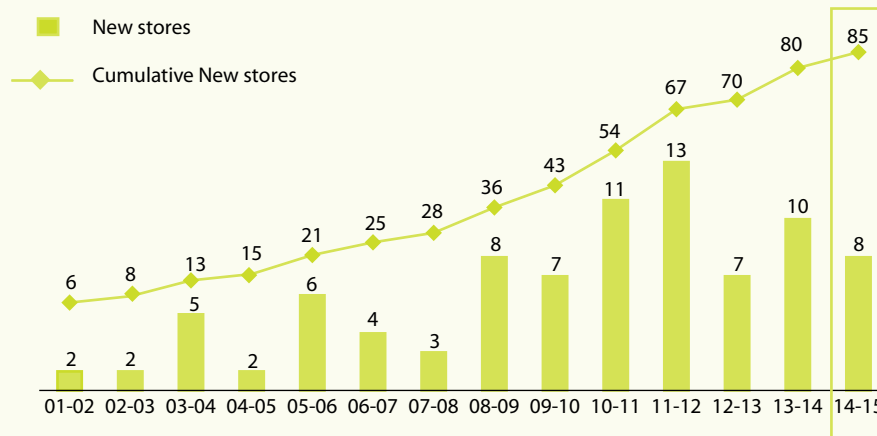

Since the last two years we increased our focus on using social media as an important customer listening and learning mechanism. A number of campaigns were carried out on Facebook & Twitter. The objective of these campaigns was to improve customer engagement and move beyond just fan generation. Power targeting was used to run customised campaigns for ClubWest members. This helped us in improving contribution of existing ClubWest members and also winning back relatively dormant members. We also feel that innovative usage of targeted communication methods helped us connect with our customers better, understand and act on their inputs.

The average bill size registered an encouraging growth of 10% in FY15. Bill size represents the amount spent on an average by each customer on their purchase. This is computed by the total sales divided by the number of memos. The following chart depicts the trend of this measure for Westside for the last few years.

Increasing reach – expanding into newer cities

India as a market is being targeted by retailers from across the globe. The trend in the last decade points to continued increase in the share of organized retail and is expected to accelerate further in the coming years especially with respect to fashion apparel. Westside continues to monitor opportunities in Tier 2 and 3 markets and establishing presence in those markets as appropriate. Simultaneously, strategic properties in Tier 1 cities which fit into our overall growth plan are also being pursued. In the year under review, eight stores were opened including the following – Bangalore Vartur Road (SJR Zion), Jodhpur (Ashapurna Mall), Chennai T Nagar (Mayfair), Mumbai Borivali (Gold Crest), Mangalore (Forum Mall), Hyderabad (Forum Sujana Mall), Mohali (North Country Mall) and Bhavnagar (Himalaya Mall). Also, three stores which were seen to be located in declining/ unviable locations and lacking a sustainable growth outlook were closed. In the first quarter of the current financial year one store has been opened in Bangalore CMJ Mall.

A team of in-house property experts help us identify strategic locations for new stores. They are supported by a well-defined set of processes for analysing the potential market and catchment. We feel this ecosystem of people and processes, help us in identifying the right store and make it profitable in a relatively short span of time. Today, irrespective of whether you are in Kochi or Jammu, Guwahati or Goa, you are likely to find a Westside store nearby.

Also, we believe in the years to come, online fashion retailing would get more entrenched in India. With an aim to address this fast emerging market, and especially to enable the convenience of our customers seeking to shop us online, we are working to launch Westside online as part of the Tata Group market place initiative. We believe this approach would provide the Company adequate visibility & control in respect of various customer experience elements including pricing, omni-channel integration and range of offering.

Operations – Star Bazaar

Trent Hypermarket Limited (THL) operates a multi format retail business under the Star banner and primarily competes in the multi brand food and grocery segment. THL is positioned to provide a convenient modern shopping environment for customers to shop across multiple product categories with a focus on service, quality and price/promotions.

The market reception for Star Bazaar stores has been encouraging and the same is evident from improvements in revenues and gross margins over the years. The food retail industry however continues to face challenges related to high input costs such as rents and electricity as well as poor logistics and infrastructural facilities.

In the last couple of years the management has focused on developing a sustainable business model. The business model envisages a multi-format strategy focused in the states of Maharashtra and Karnataka with the aim of creating local scale and being closer to customers. The focus would primarily be on food and grocery with a clear emphasis on Fresh food as the lead footfall driver. The Star brand would be represented by four facia namely: Star Daily, Star Market, Star Hyper, Star Extra. The brand would leverage the collective strength of Tata and Tesco platforms to provide customers with a modern retail solution with a focus on Fresh, Convenience and Service.

In pursuance of the strategy the company has opened 5 Star Dailies, 1 Star Market and 1 Star Extra in the cities of Mumbai, Pune and Bangalore, in addition to its existing Star Hypers. The performances of the new stores are broadly in line with expectations thereby providing support to the effectiveness of the strategy being adopted. Consequently, the intent is to accelerate the rollout of the food & convenience focused stores under the Star banner, primarily in the States of Maharashtra & Karnataka. We believe that the headroom for expansion would be substantial and the rollout could be further accelerated if we continue to see encouraging results.

In order to provide the best Fresh offering to its customers, Star has started sourcing directly from vegetable farmers by working closely with them in the growing regions of Maharashtra and Karnataka. Around 70% of vegetables are now directly sourced from farms and serviced through a network of collection and distribution centers.

Star continues to develop its own label offerings so as to provide essential consumption products at the right price points. Star own label products are present in a variety of categories such as jams, ketchup, tea, detergents, paper products, soaps, cleaning solutions, oil etc. Recently the company re-launched its packed staples category under a new sub-brand, Kitchen Culture. Select Tesco products are also on offer thereby providing customers with a unique set of choices at very attractive price-points.

Leveraging its association with Tesco the company is developing a series of modern trade solutions that take into account the needs and limitations of the Indian market. A significant amount of innovation is being deployed both in the supply chain and with respect to the store formats. Likewise, given the focus of the JV on Food and Grocery, the apparels part of the business leverages the proven expertise in this area.

Trent-Tesco Joint Venture

As discussed in the last year's report, subsequent to receipt of approval from the Foreign Investment Promotion Board (FIPB), Trent and Tesco Plc (Tesco) entered into definitive agreements to form a 50:50 Joint Venture (JV) with respect to THL in March 2014. Out of the 16 Star banner stores operated by THL (at that point in time), four were in States that did not invite FDI in multi-brand retail trade. These four stores in Gujarat and Tamil Nadu were divested by THL in April 2014 into a separate wholly owned subsidiary of Trent (Fiora Hypermarkets Ltd – FHL).

- **Investment:** As envisaged in the agreements, Tesco (through a wholly owned subsidiary) purchased part of the equity shares currently held by the Company in THL for an amount of ₹150 crores and separately subscribed to additional THL equity shares for an amount of ₹700 crores. Following the conclusion of the investment in June 2014, the Company and Tesco each hold a 50% stake in THL.

The applicable regulations require THL to invest USD 50 million from the first tranche of Tesco's infusion to be committed to green-field backend infrastructure investments. Given this end use restriction with respect to certain funds and also the utilization otherwise of funds infused, in the month of January 2015, the Company and Tesco further invested an amount of ₹150 crores each in THL's Rights Issue. This tranche of funding was seen warranted primarily to facilitate expansion of the frontend store network in the near to medium term.

- **Outlook:** We believe this JV is good news for our customers and stakeholders. This partnership should over time enable a further improved offer in terms of value, range & service. Also, the proposed investments into the supply chain should afford efficiencies and give manufacturers, suppliers & farmers an efficient route to market.
- **Expansion:** The JV is focussed on evolving a sustainable store model that will allow a significant food & grocery retailing operation to be built out over time. We intend to concentrate store presence in the States of Maharashtra and Karnataka in the near term; we will nevertheless explore opportunities for expansion into contiguous States in due course.
- **Branding:** The intent is to build on the existing Star Bazaar platform. The JV will continue to operate under multiple banners i.e. "Star Extra", "Star Market", "Star Hyper" and "Star Daily".

Tesco Hindustan Wholesaling Private Limited ("THWPL") purchase

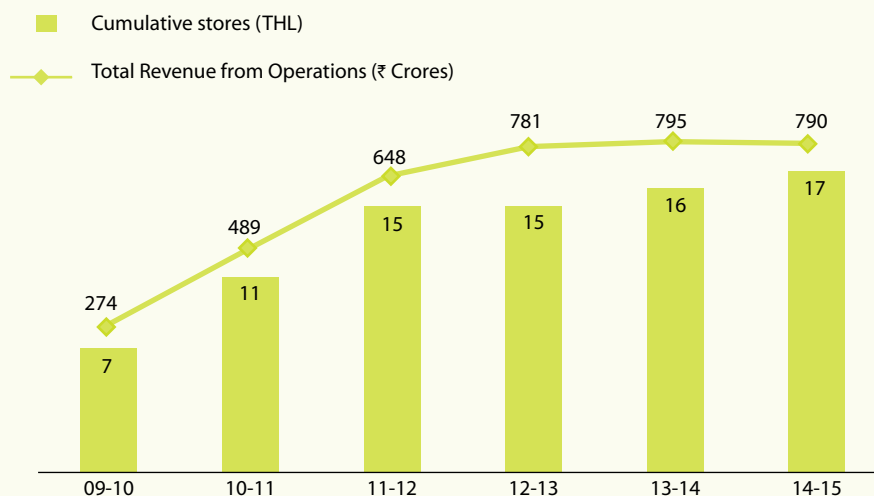

THWPL is engaged in the business of wholesale trading of food and non-food products, including fast moving consumer goods, general merchandise, fruits, vegetables and staples. THWPL also had developed backend infrastructure in terms of warehousing facilities, people and related processes. With an aim to augment the relevant backend infrastructure and support faster expansion of the store portfolio, THL acquired 100% stake of in January 2015 and consequently THWPL is now a wholly owned subsidiary of THL.

Amalgamation of subsidiaries with THL

In order to streamline the group structure & realize synergies, the Board of Directors of THL approved a Scheme of Amalgamation between Virtuous Shopping Centre Limited (VSCL; it is a wholly owned subsidiary of THL and through its subsidiary, owns a real estate asset in Pune, Maharashtra) & THWPL with THL.

The appointed date for the merger shall be 1st February, 2015. As VSCL & THWPL are wholly owned subsidiaries of THL no shares of THL will be issued & allotted pursuant to the scheme. The Scheme is subject to the requisite approval of the High Courts and other relevant regulatory authorities.

The following chart presents the revenues & store portfolio of THL over the years.

During the year under review, the like-for-like sales growth of Star Bazaar stores was 1.1% as against 3.3% witnessed in the preceding year. THL recorded a marginal decrease in total revenue to ₹ 790.14 Crores (₹ 795.35 Crores in FY 13-14) during the period under review, EBIT was negative ₹ 55.07 Crores (₹ 61.82 Crores in FY 13-14). These results are not comparable given the transfer of four operating stores from THL to FHL as discussed above. Further, as a matter of prudence, deferred tax asset of ₹ 23.57 Crores has been charged off to the P&L in the period under review and hence the post-tax results of THL are further not comparable.

FHL operations: As discussed earlier, FHL acquired from THL four of the Star Bazaar stores in Gujarat and Tamil Nadu in the context of the applicable regulations with respect to FDI in Multi Brand Retail Trading. The Company does not envisage expansion of Star banner stores other than in the State of Gujarat. Incidentally, during the latter part of FY15, FHL closed operation of the lone Star Bazaar store in Chennai given the lack of supply chain proximity, and another store in Ahmedabad given longer term sustainability issues seen. A write offs associated with closure of these two stores contributed significantly to the losses registered during the year under review. FHL also launched on a limited trial basis, a grocery online portal www.my247market.com to explore the online grocery retailing opportunity in the proximity of select Star banner stores.

Operations – Landmark

The last financial year was again a challenging one for Landmark. The overall results were below expectations. During the year under review, the Company undertook a significant restructuring exercise with respect to the Landmark business. This exercise was taken up in the context of the evolving environment for retailing of categories handled by the Landmark business (including books, music, gaming etc) and the headwinds posed by muted performance of the Landmark store portfolio. The exercise involved significant rationalization of the store portfolio, further restructuring of the product offer and material changes to look & feel of the 6 retained stores. Consequently, the Company has taken an exceptional charge of ₹ 35.64 Crores in the FY 2014-15 and the revenues declined to ₹ 101.31 Crores. The operating losses relating to the format were lower vis-à-vis FY14 but nevertheless still significant. The full impact on revenues primarily on account of closure of stores will be witnessed in FY15-16.

The principle measures pursued in the period under review include:

- **Focus of newer growth categories** – The product portfolio has been significantly rationalized with toys, stationery, front-list books and sports being pursued as the principal customer propositions going forward. The growth categories now account for over half of the business.
- **Partnership with Sports Zone** – Keeping in mind the evolving trend towards an active lifestyle the Company has entered into an alliance with Sports Zone. Sports Zone is Sonea Group's specialized sports retail brand and commands a market leading position in the Portuguese market. The innovative products and equipment developed and marketed by Sports Zone will be retailed to the Landmark customers in select stores. The first Sport Zone has been launched in Bangalore CMJ store.
- **Redesign of the store look & feel** – Consistent with the revised anchoring of the store to new growth categories, the re-configuration of the residual stores including in terms of their look & feel is being pursued.
- **Store portfolio** – We have closed stores that we believe are unviable from a medium term perspective. The intent is to focus efforts on select stores with potential for growth. Further, Landmark stores have been rolled out in select Westside stores and they are operating as a store-in-store. The focus has been on creating an optimized store size & layout with the new landmark brand proposition. As of March 2015 we had 6 operational Landmark stores, down from 15 in March 2014.
- **Integration with Westside systems:**

In order to leverage the corporate infrastructure and processes, Landmark systems have been merged with that of Westside.

Led by select categories like toys & sports merchandize, we believe the Landmark format could prove to be a sustainable growth platform for the Company over the medium term. The substantial integration of the non-customer facing parts of the business with the Westside infrastructure coupled with few strong stores can be expected to significantly improve operational performance & mitigate risks in FY15-16.

Other Joint Ventures, Key Operating Subsidiaries and Treasury

- **Zara and Massimo Dutti:** The Company has two separate Joint Ventures with the Inditex group of Spain with a shareholding of 51% (Inditex): 49% (Trent) – one for Zara and the other for Massimo Dutti stores in India. The JV for Zara Stores currently operates sixteen stores – three in Delhi, four in Mumbai, two in Bangalore and one each in Pune, Surat, Jaipur, Chandigarh, Chennai, Mohali & Gurgaon. This JV entity (Inditex Trent Retail India Private Limited) recorded revenues of ₹ 720.63 Crores in FY14-15. Plans are to open a few more Zara stores in India over the next three to four years in the major cities – the primary challenge to faster expansion is the availability of high quality retail spaces which can be expected to generate reasonable sales throughput. The Company views its commitment to this JV primarily as a financial investment and consequently, it may be appropriate not to consider this as a long term strategic investment integral to other retail operations. This view is including in the context of the majority partner entirely controlling the core customer proposition with respect to the fashion offer. The JV for Massimo Dutti stores is yet to commence operations.
- **Sisley:** In FY14-15 the Company operated two small format stores under the Sisley banner, as a franchisee of Benetton in India. Consequent to the arrangement with Benetton, the Company has not incurred any losses with respect to this operation. Since the operation was marginal for the Company, we have since exited this arrangement and would no longer be involved in the operation of Sisley stores in India.

- **Fiora Services Limited (Fiora):** Fiora hosts a range of support services to multiple Trent group entities including with respect to accounting, payroll, merchandizing etc. We believe this structure of a separate service providing entity has yielded encouraging results with respect to attracting relevant functional talent and at the same time keeping related costs under control. Fiora charges the service receiving entities primarily on an arms length basis. During the year, the charges have been calibrated to ensure that they fully in sync with the provisions dealing with related party transactions in the Companies Act 2013.
- **Westland Limited (Westland):** Westland Ltd (the Company) is a 96.64% subsidiary of the company and became part of the Trent Group in the context of the acquisition of the Landmark business. Westland's business activity is currently focused on publishing of 'Indian writing' books. Starting from a low base, Westland's publishing has grown in a relatively short span, placing it amongst the top 5 trade publishers in the country as per data compiled by A.C. Nielsen. Westland publishes (exclusively or jointly) 8 of the top 20 authors in the country. The growth of Westland's publishing business has been noticed by various international players and there have been approaches made for strategic investment. The exit from the distribution business, handling of difficulties in collections (given the closure/ significant downsizing of several key book retailers) and the significant rationalization of inventory levels led to Westland incurring losses in the recent years. The business is expected to turnaround in FY15-16 on the back of several titles of top authors slated for release and most of the restructuring actions having been completed.
- **Treasury:** The Company's treasury income (other than from subsidiaries) represented a reasonable yield on the funds deployed on account of favorable market conditions coupled with a prudent treasury policy. The yields realized were aided by favorable movement of interest rates during the period and led to better returns for the company's investments in debt instruments. The parking of proceeds from the part monetization of the stake held in THL, mostly in mutual funds, also in part explains the treasury income registered during the period. The funds under management, pending deployment into operations, are ₹ 485 Crores in Trent and ₹ 542 Crores in THL as on 31st March, 2015.

The Company has in recent years endeavored to rationalize the entity structure wherever seen appropriate – the primary aims have been to reduce complexity and realize synergies. The merger of Landmark Limited, Trexa ADMC and Fiora Link Road Properties Ltd with the Company and the ongoing merger exercise of integrating THWPL and VSCL with THL being cases in point.

Overall financial results

Overall, on a standalone basis the company has reported total revenues of ₹ 1,432.47 Crores (₹ 1,306.36 Crores in FY13-14) for the period under review and a Profit After Tax of ₹ 100.03 Crores (₹ 54.24 Crores in FY13-14).

- The exceptional items for the year represent profit on sale of part of the equity shares held in THL to Tesco ₹ 103.87 Crores net of related expenses, charges related to restructuring of continuing operations of the Landmark format ₹ 35.64 Crores and provision for diminution in the value of investments in a subsidiary (Landmark E-tail Ltd) ₹ 11.83 Crores. During the quarter ended 30th June 2014, the Company had revised the depreciation rates on certain fixed assets as per the useful life specified in the Companies Act, 2013. Consequently, carrying amount of ₹ 6.86 Crores on account of assets whose useful life has already exhausted as on 1st April 2014 and the deferred tax of ₹ 2.33 Crores thereon have been adjusted to Retained Earnings.

The intent is to exclusively list Westside on the online market place being launched by the Tata Group. This approach is seen warranted in order to leverage the opportunity to retail online and at the same time retain adequate control on the key brand elements & limit economic exposure. In the foregoing context, Landmark Etail Limited (which hosts limited online operations through its website landmarkonthenet.com) is proposed to be divested and the estimated diminution charge has been taken in the FY14-15 accounts.

On a consolidated basis the company has reported total revenues of ₹ 2,381.44 Crores (₹ 2,394.39 Crores in FY13-14) for the period under review and a Profit After Tax after Minority Interest of ₹ 129.33 Crores (negative ₹ 18.55 Crores in FY13-14). The consolidated results of the company for the year under review reflects the change in status of THL from wholly owned subsidiary to a Joint Venture entity and hence the consolidated results for the year are not comparable with that of the previous year.

In respect of the consolidated results, exceptional items represent profit on sale of part of equity shares held in THL to Tesco ₹ 158.40 Crores net of related expenses, costs related to restructuring of continuing operations of the Landmark format ₹ 35.64 Crores, impairment of fixed assets ₹ 2.70 Crores and others ₹ 4.89 Crores. Further consolidated results also reflect the following:

- gains amounting to ₹ 347.75 Crores arising consequent to dilution of the stake held by the company in THL on subscription of equity shares by Tesco being credited to the reserves in the consolidated results;
- THL's decision to charge-out the carried forward Deferred Tax Asset of ₹ 23.57 Crores to the profit & loss account as a matter of prudence;
- THWPL becoming a wholly owned subsidiary of THL during the latter part of FY14-15; and

A review of the performance of the principal retail formats has been covered in prior sections.

Internal Controls and Adequacy

The Company has a defined system of internal controls for financial reporting of transactions and compliance with relevant laws and regulations commensurate with its size and nature of business. The Company also has a well-defined process for ongoing management reporting, and periodic review of businesses using the Balanced Score Card process to ensure alignment with strategic objectives.

There is an active internal audit function and is carried out partly by internal resources & the balance activity is outsourced to CA firms. As part of the effort to evaluate the effectiveness of the internal control systems, the internal audit department reviews the control measures on a periodic basis and recommends improvements, wherever appropriate. The internal audit department is manned by qualified and experienced personnel and reports directly to the Audit Committee of the Board. The Audit Committee regularly reviews the audit findings as well as the adequacy and effectiveness of the internal control measures. Based on their recommendations, the Company has implemented a number of control measures both in operational and accounting related areas, apart from security related measures.

Sustainability

Your Company adopts a triple bottom-line philosophy (People-Planet-Profit) to create a sustainable organization.

People

Being part of the Tata Group, we have always been guided by the philosophy of improving the quality of lives of the communities we serve. Our practice of returning to society what we earn evokes trust among

consumers, employees, shareholders and the community.

In order to make community initiatives sustainable in the long run, Trent's approach to societal responsibilities and support of key communities is linked to its business and core competencies. The organization approaches all such initiatives with the philosophy of it being beneficial to the business as well and focuses on:

- Creating more jobs for the society by following a growth agenda, and recruiting freshers from local community
- Increasing employability of the employees at the entry level through cross training so that they can also pursue enriching careers within and outside the enterprise

Today, close to 20% of Company's workforce comes from the underprivileged classes of the society. The Company has won multiple awards at the Tata Group level for its efforts in making youngsters from the underprivileged classes employable and employing them.

The Company believes that people are one of its greatest assets and training is an investment for organizational excellence. As discussed in the previous year, availability of the right kind of talent in the organized retail space continues to be an issue considering the nascent nature of the industry. Although attrition continues to remain high with the front end store level staff, it is marginal amongst corporate staff. However, given the expansion plans of retailers, the emergence of new entrants coupled with pronounced hiring appetitive we are witnessing compensation pressures at all levels.

A lot of emphasis continues to be placed on training and development of store staff and also on the development of leadership skills. Further, during the year under review, the Company has taken several new initiatives to ensure that the knowledge gained is institutionalized and integrated with the processes & embedded into the relevant IT systems. As of 31st March'15 the staff strength (including corporate staff) was 3586 at Westside, 344 at Fiora, 2243 at Star Bazaar and 300 at Landmark giving an overall total of 6,473 employees across key formats/ entities within the Trent Group.

Planet

The Company follows the Tata group climate change policy which emphasises the need to play a leading role in making the planet a better place to live in. We focus on four areas for championing the cause of a green operation:

- Energy Conservation
- Logistics Efficiency
- e-Waste Management
- Product Manufacturing & Packaging

Targets are set for energy consumption at stores and offices and adherence monitored on a monthly basis. Logistics efficiency with a focus towards reducing carbon footprint helps the organization reap business benefits as well. e-Waste is managed through certified suppliers. Reduction in usage of plastic in product packaging also helps the Company in making its operations a green one.

Profit

Since its inception, the company has had a focus on delivering value for all its stakeholders. It has operated on the principles of effective cost management without compromising the quality of products retailed from the stores.

Outlook

The economic situation has shown an improving trend with new government focusing on improving the investment environment and maintaining economic stability. The improving economic scenario should translate into positive consumption triggers over time. Separately, the continued hiring by various sectors (at the entry level) and consequently improved absorption of youth into the organized workforce should also serve as an important positive consumption trigger.

On the other hand, escalating costs (especially wages, electricity and common area maintenance) imply continued challenges. Further, the increase in the service tax rate would also exacerbate cost pressures given its wide coverage.

Separately, securing properties at acceptable rentals and valuations in the real estate space (with most participants in the organized retail pursuing their growth plans) continues to be a challenge. However, across formats, the preference for standalone properties vis-à-vis mall developments has mitigated this risk to a significant degree. The property pipeline already contracted should still allow opening a number of new Westside and Star banner stores in FY 15-16.

Overall, we continue to be very positive on the underlying case for growth of organized retailing in India over the coming years. As observed in the previous years, the intent going forward is to continue scaling up our presence and in doing so across the formats:

- Concentrate resources on substantially growing the existing anchor formats (especially Westside and Star);
- Continued emphasis on building own-branded/ exclusive customer offers that are compelling to the target audience & afford greater degree of control on key elements of the customer proposition;
- Emphasize sustainable store level profitability and only scale up with new stores locations that are expected to be profitable within an agreeable time frame;
- Emphasis primarily “standalone” properties; especially given the rental economics vis-à-vis sales densities in locations of interest to us;
- Selectively commit direct investments in properties;
- Leverage partnership with global retailers like Tesco and Inditex to further the profitable growth of respective formats.

Risk and Concerns

- **Retail real estate availability and costs:** Significant number of global retailers already having presence in India & other global brands (especially under the single-brand umbrella) plan to roll out stores and consequently, the shortage of quality malls/ standalone real estate in high street locations is seen as a major impediment to the expansion plans of the organized retail in the near term. We see the emphasis on standalone properties being critical to mitigating this risk to an extent.
- **Talent availability:** As observed in earlier years, the availability of relevant talent at acceptable compensation levels continues to be an issue. And employing expatriates, with the attendant higher costs, becomes inevitable in certain areas due to paucity of talent as we attempt to scale up significantly.
- **Electricity availability & costs:** Electricity is one of the largest components of our costs and has increased significantly in recent years, especially in States like Maharashtra. Separately, higher power deficits in select cities has led to increased load shedding and has meant more reliance on generators, which has added to costs – our stores in Chennai are a case in point.

- **Reconfiguration of Landmark:** Given market conditions and developments, the Landmark format is currently in the process of being shaped into a family entertainment format, with focus on toys, front list adult & children's books, tech accessories and stationery. The Company is still faced with the challenge of establishing Landmark as a viable the family entertainment format.
- **Deep discounting by online retailers:** Several online players have sought to disrupt the retail market, especially in the last year, with deep discounting funded by overseas shareholders. The sustainability of such deep discounting is debatable but we need to nevertheless handle the onslaught and continue to be relevant to our target audiences.
- **Indirect taxation:** The indirect tax regime with its multiplicity of charges and levies continues to be an issue (should be addressed at least partly when the proposed GST regime is implemented – but even on that account both the rate and mechanics would still have material implications for our operations). The primary negatives being the increase in the service tax has contributed to an increase in the already high cost of occupancy and there is continuing litigation in this regard. This is a significant financial charge to an industry which already faces pronounced challenges.

- The NRC will recommend to the Board the quantum of commission for each Director based upon the outcome of the evaluation process which is driven by various factors including attendance and time spent in the Board and Committee meetings, individual contributions at the meetings and contributions made by Directors other than in meetings.
- In addition to the sitting fees and commission, the Company may pay to any Director such fair and reasonable expenditure, as may have been incurred by the Director while performing his/ her role as a Director of the Company. We once again request you to join us in this initiative and register your e-mail ID with Company's Registrar and Transfer Agent, TSR Darashaw Limited, in case you are holding shares in physical form. National Electronic Clearing Service (NECS) for direct credit of dividend

Payment of dividend through electronic mode has following advantages:

- Shareholder need not make frequent visits to his bank for depositing the physical warrants.
- Prompt credit to the bank account of the shareholder through electronic clearing.
- Fraudulent encashment of warrant is avoided.
- Delays/loss in postal transit is avoided.

Reserve Bank of India has initiated National Electronic Clearing Service (NECS) for credit of dividend directly to the bank account of Members.

A circular was sent by the Company to the shareholders requesting them to register for NECS. Members who have still not registered for the NECS are requested to register their Bank Account Details (Core Banking Solutions enabled account number and 9 digit MICR), in respect of shares held in dematerialized form with their respective Depository Participants and in respect of shares held in physical form with the Company's Registrar and Transfer Agent, TSR Darashaw Limited.

Nomination

As per the requirements, transmission of shares held in single name to the legal heirs/s of the shareholder would require production of documents through a Court process which involves considerable time and is expensive. This delays transmission of shares to the legal heirs.

A circular was sent to the shareholders holding shares in physical form in single name requesting them to register their nomination. Shareholders who hold shares in the physical form and wish to make/change a nomination in respect of their shares in the Company, as permitted under Section 72 of the Companies Act, 2013, may submit to TSR Darashaw Limited the prescribed Form SH-13. The Nomination Form can be downloaded from the Company's website www.mywestside.com under the section 'Investors'. In respect of shareholders who hold shares in the dematerialized form and wish to make/change a nomination, are requested to contact their respective Depository Participants.

3.11 Borrowing Cost

Borrowing cost include interest, fees and other charges incurred in connection with the borrowing of funds and is considered as revenue expenditure for the year in which it is incurred. Borrowing cost attributed to the acquisition/improvement of qualifying capital assets and incurred till the commencement of commercial use of the assets is capitalised as cost of the assets.

3.12 Impairment of Assets

The carrying value of assets / cash generating units at each Balance Sheet date are reviewed for impairment. If any indication of impairment exists, the recoverable amount of such assets is estimated and impairment is recognised, If the carrying amount of these assets exceeds their recoverable amount. The recoverable amount is the greater of the net selling price and their value in use. When there is indication that an impairment loss recognised for an asset in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognised in the Statement of Profit & Loss, except in case of revalued assets.

The respective Board of Directors of the companies included in the Group and of its jointly controlled entities are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial controls relevant to the Holding Company's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on whether the Holding Company has an adequate internal financial controls system over financial reporting in place and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in sub-paragraph (a) of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group and jointly controlled entities as at 31st March, 2015, and their consolidated profit and their consolidated cash flows for the year ended on that date.

Emphasis of Matter

We draw attention to the following matters in the Notes to the financial statements in relation to the following covered entities as given by their respective auditors:

- i) Westland Ltd (Subsidiary) - Note No. 4.14 (2) regarding disposal of its subsidiary. The items of revenue and expenses relating to the subsidiary included in these Consolidated Financial statements are based on the unaudited financial statements of the subsidiary drawn up for the period 1 April 2014 to 31 December 2014.
- ii) Trent Global Holdings Ltd (Subsidiary) - without qualifying our opinion, we draw attention to Note No. 4.14 (3) of the financial statements which indicates that, at 31 March 2015, the company had accumulated losses of USD 791,738 i.e. ₹ 3.82 Crores and has not yet started operations. This condition along with other matters as set out in Note No. 4.14 (3) of the financial statements, indicates the existence of material uncertainty which may cast significant doubt about the company's ability to continue as a going concern. The financial statements have been prepared on a going concern basis, the validity of which depends upon the continued availability of funds from the shareholder. The financial statements do not include any adjustments that would result from non-availability of finance.
- iii) Trent Hypermarket Ltd (Jointly Controlled Entity) - In respect of one of its subsidiary, Tesco Hindustan Wholesaling Private Limited, as referred by auditor of the concerned subsidiary, we draw your attention to Note 27.13 to the financial statements regarding proposed merger of the Company with Trent Hypermarket Ltd, for which the High Court of Karnataka and the sanction of the High Court is awaited.

The auditor's opinion is not qualified in respect of the above matters.

Other Matters

We did not audit the financial statements of Westland Limited and Trent Global Holdings Limited subsidiaries, Inditex Trent Retail India Private Limited and Massimo Dutti India Private Limited jointly controlled entities and Tesco Hindustan Wholesaling Private Limited, a subsidiary of jointly controlled entity, whose financial statements reflect total assets (net) of ₹ 211.31 Crores as at 31st March, 2015, total revenues of ₹ 397.35 Crores and net cash inflows amounting to ₹ 8.27 Crores for the year ended on that date, as considered in the consolidated financial statements. During the year 2011-12, Virtuous Shopping Centres Limited had acquired, 109,000 fully paid equity shares of ₹ 10 each from the erstwhile promoters of the company. The management after the takeover of the company from the erstwhile promoters had decided to treat the inventory work in progress as fixed assets and consequently the opening balance along with expenses incurred during the year 2011-12, 2012-13 & 2013-14 had been treated as capital work in progress. Since the construction is under progress, all the expenses(net) incurred during the year 2011-12, 2012-13 & 2013-14 have been treated as capital work in progress.
